

Sustainability Data Sheet

StoPur WV 100 transparent

PUR sealer, water-based, gloss, transparent, low-emission

For product description see Technical Data Sheet (if available)

Information for building certifications in accordance with DGNB (2012 version) [German Sustainable Building Council]

Quality level (ENV 1.2)	polyurethane products (with special requirements): meets quality levels 3 and 4 - GISCODE PU10 / PU40 / PU60
Product-specific LCA values (ENV 1.1 and ENV 2.1)	in accordance with the EPD
Product-specific life cycle (ECO 1.1)	10 years (in accordance with the BNB [German assessment system for sustainable building])
Impact on acoustic comfort (SOC 1.3)	not assessed
Safety and risk of incidents (SOC 1.7)	no negative impact, as product does not contain halogens
Cleaning instructions (PRO 1.5, PRO 2.2)	see Technical Data Sheet
For natural stone: "no child or forced labour" (ENV 1.3)	not applicable

Information for building certifications in accordance with LEED (2009 version)

Product group classification	EQ4.2_Floor Paint
Recycled content (post-consumer) (MR Credit 4)	0 %
Recycled content (pre-consumer) (MR Credit 4)	0 %
Rapidly renewable materials (MR Credit 6)	0 %
Certified wood (FSC or PEFC) (MR Credit 7)	not applicable
VOC content (IEQ Credit 4.1): Low-emitting	not applicable

Sustainability Data Sheet

StoPur WV 100 transparent

materials – adhesives and sealants

VOC content (IEQ Credit 4.2): Low-emitting materials – paints and coatings

not applicable

VOC content (IEQ Credit 4.3): Low-emitting materials – flooring systems

60,6 g/l (less water)

Eco-labels and designations

Certificates / eco-labels

Declaration of conformity No. ECO-CH-036

Declaration of conformity No. ECO-FR-115

Environmental Product Declaration (EPD)

EPD-DBC-20130016-IBG1

GISCODE

PU40

Safety Data Sheet (SDS)

available

Technical Data Sheet (TDS)

available

Product ingredients

Composition

See Safety Data Sheet (section 3),
see Environmental Product Declaration (EPD)

Hazardous substances (in accordance with EU regulations)

See Safety Data Sheet (section 3)

Organic content (in accordance with natureplus / baubook)

> 5 %

Volatile organic compounds (CMR substances)

cannot be detected (detection limit: 1 mg/kg) (in accordance with DIN EN ISO 17895)

Sustainability Data Sheet

StoPur WV 100 transparent

VOC content (in accordance with the Decopaint directive)	approx. 23,52 g/l (ca. 2,24 %)
Plasticiser content	plasticiser-free (in accordance with the VdL directive 01 [German Paint and Printing Ink Association])
Free formaldehyde	≤ 10 mg/kg (in accordance with the VdL directive 03 [German Paint and Printing Ink Association] and RAL-UZ 102 eco-label)
Biocide(s) / active substance(s) to protect the coating (in accordance with EU Regulation 528/2012)	not present
Biocide(s) / active substance(s) for storage protection (in accordance with EU Regulation 528/2012)	not present
Heavy metals	not assessed
Compliance with the emissions restrictions of the titanium oxide industry (in accordance with directive 2010/75/EU and BImSchV 25 [German Federal Emission Protection Regulations])	yes
Halogenated organic compounds	none
Emissions	
Halogenated hydrocarbons	cannot be detected (detection limit: 2 µg/m ³)
Formaldehyde	not present
Semi-volatile organic compounds SVOCs	cannot be detected (detection limit: 2 µg/m ³)
Disposal / re-use / recycling	
Re-use / recycling	re-use or recycling is not possible; the product can be reworked

Sustainability Data Sheet

StoPur WV 100 transparent

Disposal	See Safety Data Sheet (section 13)
Packaging / pails / films	The return of used packaging and its correct recycling is organised and certified in accordance with the statutory requirements with a regional disposal company.
Sto corporate responsibility	
Sto Guiding Principles / Corporate Governance	Sto's vision is to be the technology leader in the sustainable design of living space tailored to human needs. Worldwide. For further information please visit: www.sto.com

For further information please visit: www.unglobalcompact.org
ILO fundamental conventions	Sto has committed itself to adhering to the ILO fundamental conventions at all of its locations.
Quality, environmental and energy management	Production location certified in accordance with DIN EN 9001, DIN EN 14001, and DIN EN 50001.
Supplier Code of Conduct	The Sto Supplier Code of Conduct is based on the principles of the UN Global Compact and the Sto Guiding Principles. Suppliers must adhere to these and are continuously evaluated.

Sustainability Data Sheet

StoPur WV 100 transparent

This document aims to help you better assess the sustainability of our products. We consider sustainability to be a complex process that involves bringing together economic, ecological, and social criteria in order to satisfy the needs of current and future generations. Our products aim to contribute to this, while also meeting the requirements placed on them with respect to well-being, quality, and functionality. We regard sustainability as a process of continuous improvement, not one with an end result. With this in mind, we have defined the following core statements for our products:

1. Sto products make a contribution to key aspects of sustainability: e.g. climate protection, building, energy, and resource efficiency, protection and durability, health, and well-being.
2. All of the raw materials used in Sto products fulfil the functions for their application and are optimised with respect to their impact on the environment - based on the latest technology.
3. Sto products are produced in an energy and resource-efficient manner; renewable raw materials are used when appropriate and acceptable from an ecological, economical, and social perspective.
4. Sto evaluates and promotes the potential to dispose of, reuse, and recycle its products, taking technological and economical feasibility into account.

It is not just down to us to determine how the sustainability of our products is interpreted and evaluated - your opinions and decisions also play a role. The information listed here, which has the environment and health as its main focus, aims to assist you in this regard.

The information and data contained in this sustainability data sheet is based on our knowledge and experience. The publication of a new sustainability data sheet invalidates all previous versions. Please observe the information in the Technical Data Sheet and Safety Data Sheet. The latest version is available on the Internet.
